Prerequisite tests	T002, T001	Test creator	Jakub Novák
Tests requirements from assignment	9	Test creation date	2026-01-04

### Steps

1. Log in as the user created in test *T002*.
2. Click on *Open account*.
3. Enter account name.
4. Select type *Basic*.
5. Click on *Register*.
6. Click on *Open account*.
7. Leave account name blank.
8. Select type *Basic*.
9. Click on *Register*.
10. On the dashboard click on the account created first.
11. Click on *New payment*.
12. Enter destination account in the form of <name>#2 where <name> is the name of the user you have created.
  - For example if the user is named *Daniel* then you would enter *Daniel#2*.
13. Enter amount of funds greater than zero and less than the balance held in the account.
14. Click on *Transfer*.

### Confirmation of expected results

1. On the dashboard click on the account created first.
2. It should have the name you have specified.
3. It should show two payments.
  - The first is incoming from account Egg Bank#1 with 50 eggs shown in green.
  - The second outgoing to the account created second with amount that you have chosen.
4. On the dashboard click on the account created second.
5. It should be named *Basic account*.
6. It should have only one incoming payment from the first account with the same amount.
7. On the dashboard it should show that your total funds are 50.
